

eXcellence

in IS Solutions

When your current IT resources are maxed out or even non-existent, X-ISS steps in to relieve the pressure and provide eXcellence in IS Solutions. Since 1993, X-ISS, Headquartered in Houston, Texas, has aided clients, of all sizes, in implementing high performance and high reliability infrastructure solutions. X-ISS is eXcellence in IS Solutions. For companies desiring or experiencing growth and advancement, our expert, certified staff serves those expansive goals in various ways:

- as a back-up support system for IT departments that are stretched to the max
- as a partner with IT departments to assess needs and implement new solutions
- as an outside IT department ready to provide service, support and solutions

WHY CHOOSE X-ISS AS YOUR TECHNOLOGY SUPPORT PARTNER?

X-ISS is a consulting and service provider focused on three core practices: Windows and Linux Infrastructure Solutions, High Performance Compute (HPC) Clusters, and Managed Solutions. X-ISS has implemented simple to complex heterogeneous infrastructure solutions. Having successfully installed thousands of Linux cluster nodes our HPC expertise is unmatched. When you add to that experience, a commitment to exceptional customer service and quality, X-ISS provides a value proposition that is second to none.

X-ISS brings together the right team to meet your needs in a timely manner. With a keen eye for value, an ability to work with multiple hardware and software providers, and a process that ensures quality, while still monitoring cost, X-ISS delivers solutions that realize a positive return on your investment.

“It is not often you encounter such first-rate, dependable, quality focused engineers”

Craig McClusky, Manager, PCPC Direct
